OH MY WORD!! I bought this thinking it would be easy for my son to play, but the \$0.99 I payed was WAAAAY too much. They should of been paying me to play this thing. Graphics are not THAT bad, but gameplay is.... well... Gameplay isn't really a thing in here.. this game gets boring after 30 seconds of playing. Played 3 minutes, couldnt write a review because you need at least 5.

AFK for 16 minutes.

This game should be renamed Regret, because this is the feeling I had after buying it.

10V10. I DON'T THINK IT'S POSSIBLE TO OVERSTATE JUST HOW GOOD THIS IS!

**Pro's:**

- **An incredible spectacle of driving combat and action**
- **Great characters, story and a beautifully realised semi-open world**
- **So much to see, investigate and do**

There's a moment in Police Patrol when you realise you can go anywhere. Clear of the opening set up, the game steps back, presents you with a map of the world and says, "you know what? You're a cop car, you've got a siren: sort yourself out." It's perhaps the most initiative and unique racing / chase game to date. The ability to go anywhere and do anything in a semi-open world suddenly makes this an instant classic with an endless amount of replayability.

And guess what? It's just \$0.69.

. **Very bad game. Boring.**

**Bad graphic.**

**There are only 4 maps.**

**Very short.. I DON'T THINK IT'S POSSIBLE TO OVERSTATE JUST HOW GOOD THIS IS!**

. absolute worst game ive ever played. terrible graphics horrific controls god awful sounds all around a failure and waste of time.. It has some positives but with only 4 levels there is not much to do - there are games better that are free. With a car that turns like a boat and crashes like a movie prop, this is the premiere police chase simulator.. Played 3 minutes, couldnt write a review because you need at least 5.
